Summary

I am a highly motivated and results-driven **Full-Stack Developer** based in Türkiye, with a strong passion for **software development, problem-solving, and continuous learning**. While my core expertise lies in **backend development** using modern frameworks and scalable architectures, I also bring valuable experience in **frontend development**, ensuring a comprehensive understanding of the entire development lifecycle.

In addition to my technical skills, I have a genuine interest in **translation, transcription, and customer support**, which allows me to contribute effectively across both **technical and client-facing roles**. I am fluent in **English and Arabic**, and possess excellent **communication, collaboration, and interpersonal skills**, enabling me to bridge gaps between development teams and stakeholders.

I thrive in **agile environments**, embrace **new technologies**, and am always eager to tackle **challenging projects** that expand my expertise. I am confident in my ability to deliver **high-quality solutions**, contribute meaningfully to **cross-functional teams**, and adapt quickly to dynamic, fast-paced work settings.

Experience

ARER KONTROL ROBOTİK Student Intern	Aug 2024 - Aug 2024 Türkiye
Enkur Enerji Full Stack Developer	May 2024 - Jul 2024 Türkiye
Enkur Enerji Student Intern	Feb 2024- Apr 204 Türkiye
Kabas Group Computer Repair Technician	Jan 2009 - Jan 2011 Syria
MAVO Internet Cafe Computer Repair Technician	Jan 2008 - Jan 2009 Syria
Center CD Computer repair technician and salesman	Jan 2006 - Jan 2008 Syria

Education

Kahramanmaraş Sütçü İmam University
Computer Engineering

Projects

Healthcare Appointment System

🌐 <https://github.com/Music47ell/KSU-GP-HAS>

- Built a full-stack healthcare appointment platform using **Astro** with **TypeScript** and **TailwindCSS** for a responsive, accessible UI.
- Used **Supabase** for user authentication, patient records, and appointment management.
- Deployed on **Vercel**, leveraging serverless architecture for scalability and low-latency performance.

Job Board Platform

🌐 <https://github.com/Music47ell/KSU-GP-JP>

- Developed a full-stack job board using **Astro** for the frontend and **TailwindCSS** for responsive UI design.
- Integrated **Supabase** for backend services including authentication, database management, and real-time data handling.
- Deployed on **Vercel** ensuring fast, scalable, and serverless hosting.

Volunteering

Crowdin **2018 - Present**
Translator
Remote
🌐 <https://crowdin.com/profile/music47ell>

I enjoy translating free and open source projects in my free time. For example:

- Box Box
- Cryptomator
- NextDNS

And much more. Make sure to check out my Crowdin profile.

Skills

Front End

Javascript/ES6+, TypeScript, React.js, Vue.js, HTML5, CSS

Back End

Node.js, Python, PHP

Databases

SQLite, libSQL, MySQL, PostgreSQL

Framework

Next.js, Nuxt.js, Tailwind CSS, Astro, Express.js

Technical

Git (GitHub, GitLab, Bitbucket), DNS Managment, Testing, API, SEO, Docker

Certifications

Data Analysis with Python freeCodeCamp	Oct 2024
JavaScript Algorithms and Data Structures (Beta) freeCodeCamp	Oct 2024
Software Engineer Intern HackerRank	Oct 2024
Relational Database freeCodeCamp	Oct 2024
Frontend Developer (React) HackerRank	Sep 2024
Developer Virtual Experience Program Forage	Feb 2023
Postman API Fundamentals Student Expert Postman	Feb 2023
Quality Assurance freeCodeCamp	Jul 2022
Scientific Computing with Python freeCodeCamp	Jun 2022
Back End Development and APIs freeCodeCamp	May 2022
Data Visualization freeCodeCamp	May 2022
JavaScript Algorithms and Data Structures freeCodeCamp	May 2022
